

UNITED STATES  
DEPARTMENT OF THE INTERIOR  
BUREAU OF RECLAMATION  
COLUMBIA BASIN PROJECT , WASHINGTON

This revision, consisting of a title page, a sheet showing official actions taken with respect to the plat, and the following General Map sheet, showing the farm unit boundaries, together with 6 supplemental sheets showing detailed drawings for individual units of a farm unit, comprises the Sixth revision of the farm unit plat of the Grant County No. 75 of the Columbia Basin Project, dated March 2, 1952 and filed for record in the County Auditor's Office of Grant County, Washington, on March 25, 1952, Auditor's file No. 1833367. Previous revisions were made on September 8, 1954, July 27, 1956, July 18, 1957, August 5, 1958 and August 31, 1959.

The revisions in the farm unit plat, Irrigation Block No 75 consist of

The General Map sheets show in tabular form the irrigable area in each farm unit by classes of land and the portions within each farm unit required for rights-of-way or designated as Class 5 (temporarily unproductive), Class 6 (non-irrigable), or "high". The land classes indicated in the tabulation on the maps were designated and established on June 16, 1959 by the Regional Director, Region I, Bureau of Reclamation, for and on behalf of the Secretary of the Interior. Lands in Class 5 are regarded as being temporarily unproductive because of seepage conditions. Lands in Class 6 are regarded as non-irrigable. Lands designated as "high" are regarded as being at an elevation beyond the economical reach of the distribution system being provided for the irrigation block. The State of Washington and appropriate counties have furnished, upon the solicitations of the United States, information showing changes in alignment and rights-of-way for public highways and roads under their jurisdiction. To the extent that it has been practicable so far, these data have been correctly placed and shown on this revised plat. In the last year of the development period for the block an announcement to the Irrigation District will be issued by the Secretary of the Interior establishing and fixing the irrigable areas and land classes of each farm unit in the block for purposes of water service charges and project construction repayment as provided for in the repayment contract of October 9, 1945 as amended between the United States of America and the Quincy Columbia Basin Irrigation District, recorded in Grant County, Washington, in Volume I of Columbia Basin Documents, page 1 to 61 inclusive.

In considering these revisions, investigations and studies were made of the lands in the block and the project as a whole with the object of determining the area, shape and boundaries of the various farm units in this block, having in mind the requirements of the Columbia Basin Project Act (57 Stat. 14) and of Chapter 275, Laws of Washington, 1943, as amended, and of the policies established thereunder by the Secretary of the Interior. Based on these studies and investigations and all relevant data brought forward since the filing of the farm unit plat, I find that the unit as herein revised has sufficient acreage for that support of an average-sized farm unit, a suitable living level and have appropriate shapes and boundaries, having in mind the character of the soil, topography, location with respect to the irrigation system, and all other factors that are relevant to the determination of the area and boundaries of the farm units. Accordingly, acting pursuant to the authority delegated to the Commissioner of Reclamation by the Secretary of the Interior, as shown by Departmental Order 2765, dated July 30, 1944, and re delegated to me by the Commissioner of Reclamation by Commissioner's Order 14, dated October 6, 1954, and Commissioner's Order 34 Amendment 1, dated October 29, 1954, all as recorded in the Auditor's office of Grant County, Washington, in Volume 2 of Columbia Basin Documents of page 699, and pursuant to the provisions of the Columbia Basin Project Act as amended, and Chapter 275, Laws of Washington, 1943, as amended, and the repayment contract of October 9, 1946, as amended, between the United States of America and the Quincy Columbia Basin Irrigation District, I hereby revise the farm unit plat of Irrigation Block 75, dated March 2, 1952, by (1) Replacing the General Map sheets of that plat with the General Map sheets of this plat and (2) Replacing supplemental sheet 14 of the plat revision recorded September 8, 1954 and supplemental sheets 4 and 5 of the plat revision recorded July 27, 1956 and supplemental sheets 6, 10 and 12 of the plat revision recorded August 31, 1959 as revised, with sheets 1 through 6 respectively, of this plat.

I, A. W. W. REEF, have signed this instrument this \_\_\_\_\_ day of \_\_\_\_\_
